# iiNet BizPhone 'Cordless' W56P Quick Startup Guide

IP DECT W56P

Quick Startup Guide

Packaging Contents

The following contents are included in your W56P package:

W56H Handset   Base for W52P/W56P   USB Charger Cradle   Two Power Adapters

Belt Clip   Ethernet Cable   Rechargeable Battery   Quick Start Guide
Assembling the Phone

1. Connect the network and power for the base station in one of the following ways, as shown below.

a. AC Power Option   b. PoE (Power over Ethernet) Option

2. Insert the battery into the handset, as shown below.

---

3. Connect the charger cradle and charge the handset, as shown below.

Note: The handset should be used with original power adapter (5V/500Ma) only. The use of a third-party power adapter may cause damage to the handset.

The charging status of the handset is indicated in the top right-hand corner of the LCD screen

Startup the Phone

The IP Phone is pre-registered to the base station. After the IP Phone is connected to the network and the power, it will automatically start the initialization process by connecting to iiNet BizPhone's servers to obtain the configuration and updates (maximum 10 minutes).

The LCD screen will indicate the current status of the process (initializing or configuration updating). The phone may reboot few time during this process. After the final reboot, the phone is ready to use.

BASIC OPERATIONS
