

iiNet Business Cloud Data Upload

Your data uploaded to your Business Cloud in three easy steps.

- 1. Get your data onto a hard drive.**
We accept any USB 2.0 or 3.0 external hard drive in its own enclosure.
- 2. Fill out the form attached at the bottom section of this page and send it with your drive to:**
ATTN: iiNet Hosting
Level 1 Reception,
502 Hay Street,
Subiaco 6008
- 3. iiNet uploads your data within five days of receiving the device.**
We then return your storage device to you, all included in the price.

Terms, conditions & pricing

- iiNet Business Cloud Data Upload Service is charged \$75 AUD ex GST per Device plus \$2.50 AUD per data-loading hour or part thereof.
- iiNet will not be liable for any consequential, incidental damages associated with loss or damage of data or to the device whilst the device is in transit or in our possession.

3. If your device is lost or damaged in transit, you'll need to follow up with your delivery service. If iiNet is unable to upload data from your device because it was damaged in transit, corruption or other reasons beyond our control, we'll notify you immediately. You may be charged a administration fee to cover the return shipping costs.
4. If sending your device from a location outside of Australia, you remain responsible for compliance with applicable export and import laws and payment of any applicable duties.
5. By sending your device to iiNet you agree to these terms.
